

David LeClair Award

The David LeClair award was established to recognize and encourage newer MAHU members who have shown strong leadership qualities and service to the health insurance industry and in various community activities. The award consists of a cash grant and a recognition plaque, and is presented to an individual who has demonstrated dedication to the health care industry and is a “newcomer” interested in furthering his/her career in the insurance industry. The award is presented at the MAHU Annual Meeting.
