MAHU Successes

Consulted on the Minnesota Premium Security Plan (Reinsurance) extension for the individual market

Successfully intervened to ensure the MCHA assessment was not re-imposed

Supported the modified domicile test under the individual income tax's definition of "resident," so that the location of the individual's attorney, certified public accountant or financial advisor doesn't create Minnesota residency.

Worked with allied industries to help defeat a proposal that would have put the state in competition with private sector retirement plans.

Passed a prohibition on the sale of ancillary products on MNsure.

Secured MAHU representation on Governor Dayton's Health Care Financing Task Force

Successfully lobbied that agent commissions remain between agents and carriers rather than be set by the state as was proposed by the administration.

Successfully lobbied that individuals retain the right to purchase outside of the exchange.
